# Immerse in Expansive Vision

Delve into the depths with Fishing CamX's 136 ° lens, capturing every chase, struggle, and triumph in vivid detail. More than fishing, it's a wide-lens adventure into the unknown, making every catch a spectacle. Proclaim your mastery of lure fishing to all!

136°

# Illuminate Every Depths

Fishing CamX's light correction with the most penetrating green supplementary light adapts to all conditions, ensuring each fishing tale is authentically captured. Navigate from shadowy depths to shimmering surfaces and share the 'WOW' with friends!

# Dive Deeper, Discover More

Boasting ROV-level waterproofing and a long 138-minute battery life, Fishing CamX dives up to 656ft (200m) in both saltwater and freshwater, uncovering diverse fish at every depth. You can be an expert angler as well as a professional marine storyteller.

656 FT

# Capture Smartly Segment Intelligently

Enjoy Fishing CamX's smart recording with 16GB storage, auto storing footage every 3 minutes or as preferred. It ensures every chapter of your fishing journey is vividly captured. Accurately and easily flaunt your angling skills with ease!

# Steady Focus Dynamic Capture

Fishing CamX's image stabilization utilizes fluid dynamics and a fin-like design, offering steady footage across diverse fishing techniques. Whether you're engaging in the swift action of trolling, or the patient waiting in float fishing, our technology ensures stable, clear captures. Seize the chance to impress and boast, making each catch a statement of your unmatched fishing flair.

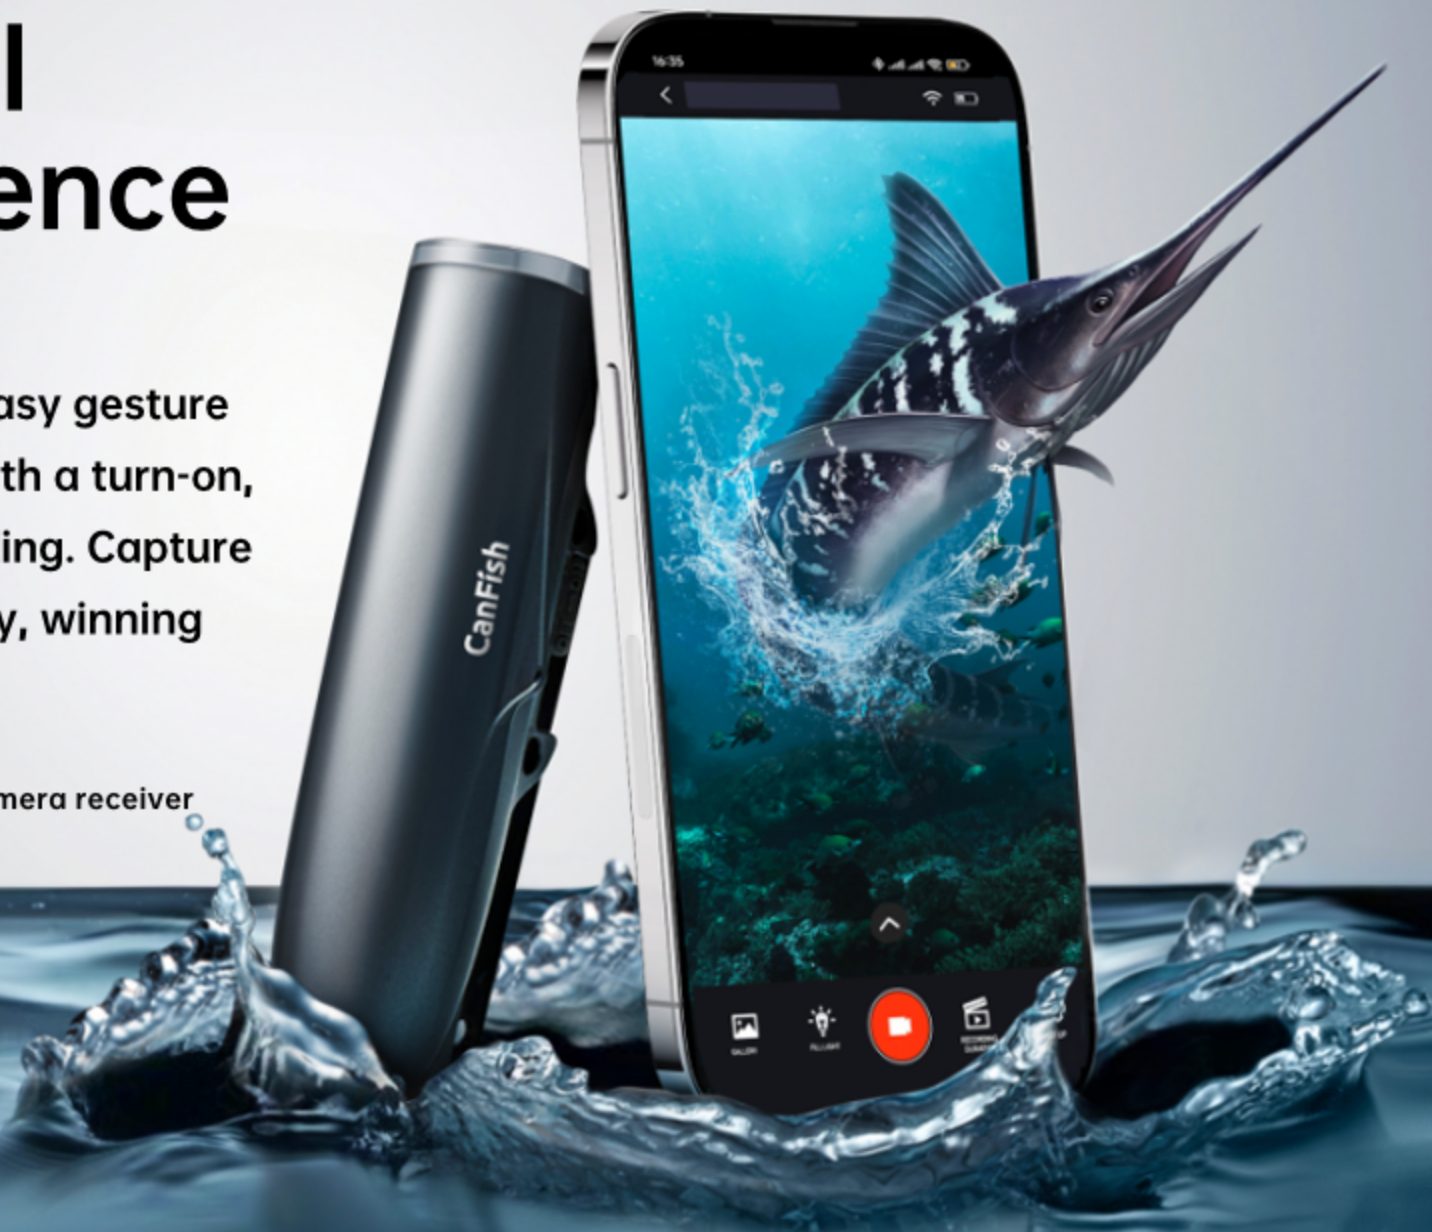

# Effortless Control Seamless Experience

Fishing CamX transforms your fishing with easy gesture control and wireless transfer. Auto-record with a turn-on, and use gestures to manage WiFi and recording. Capture and share your catches within 50m\* instantly, winning instant admiration from friends!

\*This feature is only applicable to fishing methods with the camera receiver above the water surface, such as float fishing

# Product Parameters

## Camera

Maximum working depth	200m (656ft)
CMOS	200万,FHD,SONY Stella CMOS SENSOR
Aperture	F/2.0
Effective focal length (EFL)	0.2m <sup>~∞</sup>
ISO range	100-6400
Field of view	136°
Max. image resolution	1920*1080,FHD
Maximum video bit rate	4Mbps
Video format	MP4
TF card	16GB

## Appearance Design

Size	D31mm*L110mm
Weight	85.3g

## Charger and Battery

Charging time	3.5h(Room temperature 25°C, lab environment test)
Endurance	2.3h (WiFi off, Room temperature 25°C, lab environment test)

## Other Parameters

Camera waterproof rating	IPX8
Wi-Fi	2.4GHz/5GHz (Not available after entering water)
